Transcript: The Collaborative Partnership Between ESCs and SSA Member Districts

The programmatic roles and responsibilities of an SSA are the same as the roles and responsibilities for an Independent Project District. However, in an SSA, these are shared between the SSA Member District and the fiscal agent, which is the regional ESC.

When an LEA elects to receive their migrant funds as an SSA Member and an ESC designates they will be the fiscal agent, both are agreeing to fully and appropriately implement the Title I, Part C Migrant Education Program.

This makes the entities partners. A regional contract between the SSA Member District and the ESC outlines which entity is responsible for the various duties.
